Projects

Portfolio Site

Built a **fully responsive** portfolio website using **React.js** using a **Glassmorphism UI**. With some added npm modules such as **react-icons** and **react-typing-animations** to put some extra functionality into it. Check out the live demo by clicking the home icon!

Studio Glam

A **fully responsive** e-commerce website built with **React.js, Redux, MongoDB, Node.js, and React-Bootstrap**. The website helps the user to shop online and the development of an event-based server allows the admin product updating with ease. Deployed using Heroku!

Omega

A **fully responsive** interactive front-end-focused app that navigates users through Swedish-designed German-made furniture. Developed using **React.js and Sass** for the modular UI.

Best Beats

A fully responsive front-end application that is a one-page e-commerce concept website. Built using **Vanilla JavaScript** for functionality and **HTML and CSS** to create the modular UI.
